

# ARTISTS in ACTION

## Nodeen Salmon

Nodeen Salmon is a textile artist from Bedfordshire who enjoys sharing her art-work journey through talks and workshops in machine embroidery, creative hand embroidery and mixed media.

The sewing needle, both hand and machine, lots of threads (both machine and hand) and fabric, together with pencil and paper are the nourishment that keeps her motivated each day to create beautiful designs mainly in landscape.

Inspiration from landscapes and trees can always be found in her work. This year she has been looking at using the sewing machine needle as a pencil and how to colour mix beautiful machine embroidery threads in design.
